About The Company

Simplior Technologies is an IT based Organization primarily focusing on Transformation / Transition based projects including Assets & Logistics. Simplior portfolio consists of both Infrastructure & Application Domains.

Simplior offers innovative and customer-centric information technology experiences, enabling enterprises, associates and the society to rise.

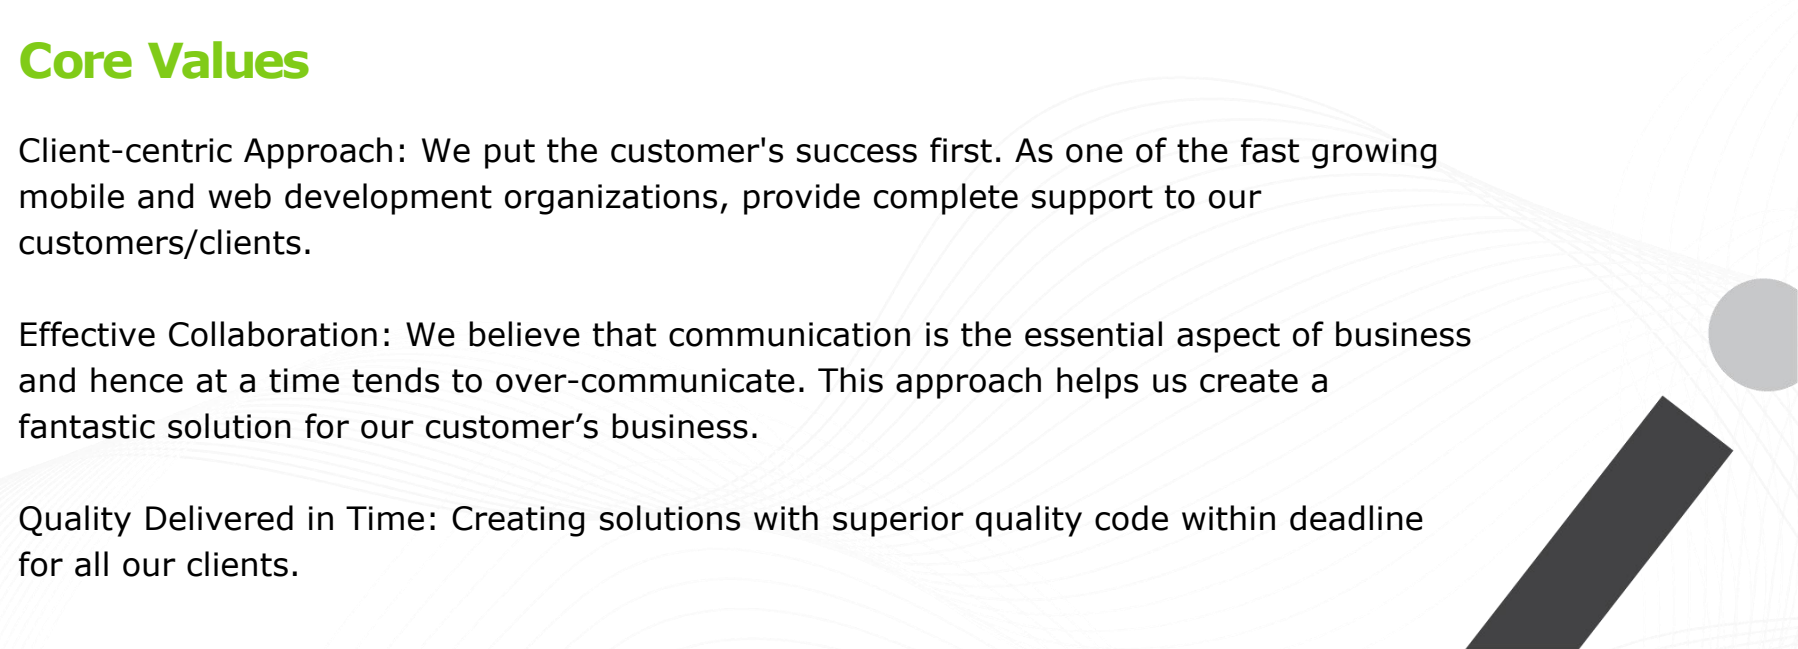

Simplior has been part of various successful client journeys and happy clients over the last 7 years, spanning across the globe.

Core Values

Client-centric Approach: We put the customer's success first. As one of the fast growing mobile and web development organizations, provide complete support to our customers/clients.

Effective Collaboration: We believe that communication is the essential aspect of business and hence at a time tends to over-communicate. This approach helps us create a fantastic solution for our customer's business.

Quality Delivered in Time: Creating solutions with superior quality code within deadline for all our clients.

Key Client Engagements

SaaS based Web Solution

America's leading provider of lease and installment contracts for backyard storage units, carports. It offers paperless contracts and Lease purchase and financial payment solutions by combining digital and one-on-one counseling approach.

Simplior helped in development of a web based solution to manage paperless contract with eSign capabilities, Payments solutions (PayTrace and Aptex) and Inventory Management of backyard storages, carports and animal shelter buildings for RTOProviders. Dealers can create e-contracts, select flexible and simple payment options (With \$0 down financing and no credit check). and ask for e-signature via SMS or email. RTO providers can track inventories by various status (In Inventory, Rented, Paid Off, Missing, Pickup Requested)

- Personalized online application links
- Personalized quick quote calculator ([View Image](#))
- Paperless contracts with e-sign capabilities ([View Image](#))
- Smart edit your contracts online all the way up to funding ([View Image](#))
- Lease purchase and finance payment options ([View Image](#))
- Track Assets from contact approval to paid off ([View Image](#))
- Mobile-friendly portal with live system updates
